

Almost all types of shoes

To measure your insole or shoe, all you need is a piece of paper, pen and a ruler.

Remove the insole from your shoe:

Step 1

Place the insole in the paper and trace with the pen.

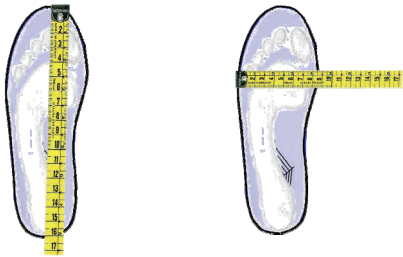

NOTE: the pen should be hold almost straight.

Do not push pen under insole when tracing.

Step 2

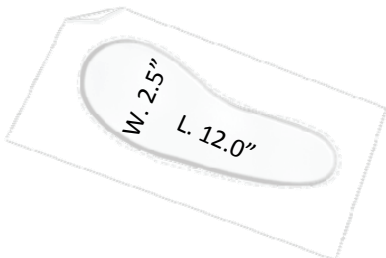

Take a ruler and measure your insole.

Write the measurement on your trace.

Don't forget to write inches or cm.

Step 3

If the insole is glued to the shoe. No problem!! Just do the same step as the insole

Trace the shoe

Measure

If your shoe shows the seam on the sole then use it as guide.

But if the shoe doesn't have visible seam, then measure the edge around the shoe.

And write a note in your trace.

At last write your name , shoe size and your e-mail.

If you want to send your trace via fax.

We will send you a message when the fax is received,

And let you know if the faxed page is good to proceed With your order.

Well that's it you are done .

Thank you for reading.
